## Quality Policy Statement

The Company has embraced a Quality Management System based on the latest issue of the Quality Management System Standard EN ISO 9001. The Directors and Senior Management monitor the Quality Management System to ensure this is fit for purpose and to maintain its effectiveness and ongoing improvement. The registration body Exova BMT rada carries out regular surveillance audits and re-assessment visits to ensure the continuing and ongoing compliance of the system to the Quality Management System EN ISO 9001 Standard.

The Company is committed to the provision and satisfactory completion of Electrical, Control, Instrumentation, Data and Communications and Building Services Installations to Client specifications that comply with current Regulations, National and where applicable, International Standards together with all Statutory and Health, Environment and Safety requirements.

The Managing Director is ultimately responsible for the effective operation of the Quality Management System however, all personnel in the organisation are kept aware of their responsibilities and obligations towards the maintenance of the system and the achievement of the quality objectives periodically updated.

All reasonable facilities and access to the documented information in the System are made available to Company Customers and Clients in order to provide assurance that the Company's Quality Management System is operating effectively and in compliance with the Standard ISO 9001.

The Quality Manual sets out the processes and procedures used by Lightning Group of Companies to implement, maintain, monitor, and improve on an ongoing basis the Quality Management System and safely deliver Projects to required standards, within a timely manner and within mutually agreed targets and agreements.

Signed:  (Group Managing Director / Chief Executive Officer)

Dated: 30<sup>th</sup> August 2018
